## Portable. Professional. Rugged. Affordable.

Whether you're a farmer or a fabricator, an auto-body shop or a backyard mechanic, the MIG 2500 will help you get the job done! It's a portable wire welder designed for use with industrial 240 volt input power, so you can weld on thicker material – up to 3/16 in. with MIG welding.

### FEATURES

- Provides a smooth, spatter-free start. It's the best-starting machine in the small MIG machine category.
- Voltage control gives you the flexibility to manually set the machine when welding aluminum, stainless steel, or anytime you want to set your own parameters on mild steel.
- Thermal overload protection with indicator light helps prevent machine damage if the duty cycle is exceeded or airflow is blocked.
- Inverter-based, DC power source has a simple-to-use operator interface providing only the necessary controls in a compact machine.
