

Quick Specs Industrial Applications
Petro/Chem Fabrication
Shipboard Installation/Repair
Mechanical Contractors
Mining
Process Piping

Power Voltage 3 Phase AC415V ±15%

Input Current 22A/15.8kVA Output Current 30-300A Max. OCV: 76VDC Output Voltage 32V Duty Cycle 60% Weight

13KG

Dimensions D470×H375×W210MM

Portable. Professional. Rugged. Affordable.

The inverter *V-405i* offers much more than you would expect from a welder this size. Weighing in at just under 13kg the Inverter *V-405i* is no lightweight contender. It packs the full punch of a heavyweight professional that you can take to the most demanding job sites. It can operate from a portable generator.

FEATURES

- Arc Force minimizes electrode sticking in the puddle without compromising arc stability or increased spatter.
- Automatic Hot Start boosts the current during starting to make striking an arc easier.
- Thermal overload protection with indicator light helps prevent machine damage if the duty cycle is exceeded or airflow is blocked.
- Inverter-based, DC power source has a simple-to-use operator interface providing only the necessary controls in a compact machine.

PROCESSES

Stick (SMAW) DC TIG (GTAW)

INCLUDED

V-405i Machine Only Includes:

- V-405i
- 2 PCS 35-50MM² MALE PLUG

*Please note that the specification may vary within each country. Specifications are subjected to change without notice.
